

Recommendation Letter

We, Kinetics Technology S.p.A (KT), would like to recommend the services offered by Awatera. We have been cooperating with the company for more than three years (since 2017). During that period of time Awatera has been successfully fulfilling its duties.

We would like to especially highlight the notary service and the translation service of documents of different complexity and importance from English and Italian to Russian and vice versa. Our company highly appreciates cooperation with Awatera as it always follows the terms (deadlines) and provides high quality services.

If you have any further questions regarding our cooperation with Awatera, please feel free to contact us.
